

What Others Say

“I, along with many other individuals and organizations have relied on your work and leadership for many years. I greatly respect your advocacy and achievement in raising and bringing forward this important issue for our children and our schools.”

Carolyn Smith-Evans, President,
NEA Healthy Schools Caucus, August 2006.

“I just wanted to thank you for the time and energy you have invested for the health of our children! We all want to see our children grow into beautiful, healthy individuals. I hope and pray we are heard and laws are made to PROTECT our children and our futures!”

Pennsylvania Parent, April 2006.

“Thank you so much for all the kindness you extended to me during my attendance at the Coalition for Healthier Schools meeting in January. I was so delighted and encouraged by all the work you and this group are doing. Thanks again on your tireless efforts on behalf of all of us.

J.B., Washington Education Association, February 2006.

On EPA Award: “Congratulations! Great recognition for your invaluable contributions. It gives us all hope that our efforts will not only be recognized but result in improvements for all occupants of built structures.”

Carl E.Grimes, Healthy Habitats LLC, January, 2006.

“The continued success in raising awareness about children’s environmental health is dependent upon the ongoing support of programs like the Healthy Schools/Healthy Kids Clearinghouse.”

US EPA, in awarding HSN’s Clearinghouse the
Children’s Health Protection Award in 2005.

“Thank you again for all that you do- you are one of my heroes. I really appreciate the NewsSlice service- you guys are doing a great job of informing people about health and schools. Keep up the good work.”

A teacher from California.

“Thank you for the terrific work you do. You are my source for updates on environmental issues at school. We use your material in developing our e-journal and deciding on issues we should include on our web site. I can’t imagine teaching the environmental health component of my health class at GWU School of Public Health without Healthy Schools. Thanks again.”

J.G.L., George Washington University, June 2004.
